

HARSH KUMAR

Software Engineer

+91 7055034867 | harsh237hk@gmail.com | New Delhi, India

[Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience designing, building, and deploying scalable full-stack web applications and AI-powered systems using JavaScript, TypeScript, React, Node.js, and Express.js. Skilled in RESTful API design, relational and NoSQL databases, unit testing, and the end-to-end Software Development Lifecycle (SDLC) from architecture through production deployment, following Agile/Scrum methodology. Strong foundation in Data Structures and Algorithms (320+ LeetCode problems solved), Object-Oriented Programming, and System Design, with proven ability to deliver production-grade software in cross-functional team environments. Active open-source contributor (10+ pull requests merged) driving clean code practices, performance optimization, and applied AI engineering.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, C

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3, Zustand

Backend: Node.js, Express.js, RESTful APIs, Microservices & MVC Architecture, OAuth

Databases: PostgreSQL, MySQL, MongoDB, Redis

Testing: Jest, Postman (API Testing)

Cloud & DevOps: AWS (EC2, S3), Docker, Git, GitHub, CI/CD, GitHub Actions

AI Tools: Claude, Codex, OpenAI API, RAG, Agentic AI

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Apptriod Technologies Pvt. Ltd.

Aug 2025 – May 2026

India

- Built scalable RESTful APIs using Express.js, TypeScript, and MySQL capable of supporting workloads exceeding 100,000 users, ensuring high availability and efficient request handling in production environments.
- Implemented an automated result-generation pipeline using Cron Jobs and queue-based processing, reducing peak system load by approximately 40% while eliminating manual intervention and improving operational efficiency.
- Collaborated with engineering and product teams in Agile/Scrum sprints, contributing to feature development, code reviews, sprint planning, and Git workflows.

Web Developer — Google Developer Groups (GDG), AKGEC

Oct 2024 – Present

India

- Engineered event management APIs capable of handling real-time registrations and attendance data for 1,000+ participants, ensuring reliable database transactions and seamless user experiences during peak traffic periods.
- Designed and implemented secure user registration, authentication, payment, and QR-generation workflows, enabling participant onboarding and event access management with zero manual intervention.

PROJECTS

Eval — AI Video Intelligence Platform

[Live Demo](#) | [GitHub](#)

- Architected and built a production-grade AI video intelligence platform that analyzes and compares YouTube videos and Instagram Reels using RAG, Agentic AI, and semantic search, processing 500+ hours of video content.
- Designed an AI-powered transcript ingestion pipeline using the YouTube Transcript API, yt-dlp, Whisper API, FFmpeg, OpenAI Embeddings, and Qdrant, generating and indexing 10,000+ vector embeddings for low-latency retrieval.
- Enabled source-cited, context-aware responses to improve output transparency and reliability for end users.

Git-SAT — Git Standup Automation CLI

[Live Demo](#) | [GitHub](#)

- Developed a production-grade CLI tool in Node.js that parses 20+ Git commits and diffs to auto-generate developer standup summaries in text, Markdown, and JSON formats.
- Built and shipped a secure authentication and plugin-based integration framework enabling scalable API connectivity, reusable command modules, and streamlined diagnostics for troubleshooting.
- Reduced documentation overhead by 55%+ and cut time spent writing commit summaries by approximately 80%, demonstrating measurable developer-productivity impact.

EDUCATION

B.Tech in Computer Science — AKGEC, AKTU

2023 – 2027

CGPA: 7.9 / 10

ACHIEVEMENTS & CERTIFICATIONS

- Solved 320+ Data Structures & Algorithms problems on LeetCode.
- Merged 10+ pull requests across open-source organizations.
- Two-time Inter-School Debate Winner.
- Certification: Full Stack Web Development Bootcamp — Udemy.
